Introducing the Polylok 24" Rhino Box, the most versatile box on the market! It has ten (10) potential openings. It can be used as a catch basin, distribution box, pump chamber, meter pit, and much more.

**Features:**
- Easy to install
- Accepts 24" Polylok risers
- Accepts 4", 3", & 2" pipe
- Accepts 6" pipe with the use of Polylok 6" grommets
- Pipe can be installed at various heights

**Part Numbers:**
- 3017-C24 (w/ domed cover - 3008-RC)
- 3017-G24 (w/ heavy duty grate - 3008-G24)
- 3017-24 (w/ no cover/grate or screws)

**Package includes:**
- 24" ten (10) hole box
- Cover or Grate*
- (4) Seals
- (8) Stainless steel screws*
  * Not included with PN: 3017-24

**Recommended:**
Make the perfect size hole for your Polylok 4" seals with the **Rhino Horn** 5-1/8" bi-metal hole saw with arbor. (PN: PL-HS-513)

---

**COMING SOON**

The new Polylok 4' Skinny Trench Drain offers many of the same features that our 4' Heavy Duty Trench Drain does but in a slim compact design. Available Spring 2019.

---

**12” Round Drainage Boxes**

- Use as a rain drain for gutters, driveways and sub-surface drainage.
- Use with 12” Polylok risers to bring the grate or cover to grade as needed.
- Use our watertight seals with nuts for 2”, 3”, and 4” SCH40 or SDR35 pipe, and 4” corrugated pipe.
- Four stabilizing feet with every box.
- Plastic or galvanized steel grates available to suit your application.
- Solid or heavy duty covers available for specific design requirements.

**Kit Includes:**
- Box (4 hole)
- Plastic grate
- Two 4” seals with nuts
- Four stabilizing feet
- Four stainless steel screws

**20” Drainage Box Features:**
- Can be used as a valve or meter box.
- Use with 20” Polylok risers to bring the grate or cover to grade as needed.
- Use our watertight seals with nuts for 2”, 3”, and 4” SCH40 or SDR35 pipe, and 4” corrugated pipe.
- 6-hole and 7-hole boxes accept 6” pipe.
- Plastic or galvanized steel grates available to suit your application.
- Solid or heavy duty covers available for specific design requirements.

**Kit Includes:**
- Box (6 hole, 7 hole, or 8 hole)
- Plastic grate
- Four 4” seals with nuts
- Six stainless steel screws

**24” Rhino Drainage Box Features:**
- Can be used as a valve or meter box.
- Use with 24” Polylok risers to bring the grate or cover to grade as needed.
- Use our watertight seals with nuts for 2”, 3”, and 4” SCH40 or SDR35 pipe, and 4” corrugated pipe.
- Use our 6” grommets for 6” SCH40 or SDR35 pipe.
- Solid or heavy duty covers available for specific design requirements.

**Kit Includes:**
- Box (10 hole)
- Plastic heavy-duty grate
- Four 4” seals with nuts
- Eight stainless steel screws

* Make the perfect hole size when using the provided 4” Polylok seals by using our Rhino Horn 5-1/8” hole saw.
SQUARE CATCH BASINS
Polylok Catch Basins are used to collect and discharge excess water in order to prevent potential damage to landscapes and property. We offer our catch basins in two sizes: 9"x9" and 12"x12", with many grate options and accessories available. Our catch basins are precut with two inlet/outlet side openings. Additionally, our catch basins come with two sets of seals that accept 2", 3" and 4" SCH40 or SDR35 pipe, and 4" corrugated pipe. With the use of our optional 6" Polylok Seal with nut the 12"x12" model now accepts 6" pipe.

Kit Includes:
- Box
- Grate (black or green)
- Two 4" seals with nuts
- Four stainless steel screws

Optional Accessories:
- Cast iron grates
- 6" seals with nuts for 12"x12" catch basin
- Atrium grate (black or green) for 12"x12" catch basin
- Square 6" tall risers for 12"x12" catch basin
- Solid cover for 12"x12" catch basin

ROUND CATCH BASINS
Product Features:
- Made of high density, non-corrosive polyethylene plastic (HDPE) with the highest UV protection available
- Comes standard with a 24" heavy duty grate
- Includes four 4" SCH40 grommets
- Grommets can be placed anywhere on the basin or riser stack
- Custom heights available
- Accepts all 24" Polylok risers

Kit Includes:
- 24" basin (approx: 25 gallon capacity)
- 24" heavy duty grate
- Four 4" SCH 40 grommets
- Eight stainless steel screws

Customize your 24" round catch basin with additional risers and grommets.
HEAVY DUTY TRENCH DRAINS

Our trench/channel drain system is engineered to deliver the most flexibility in a heavy duty design. The Polylok Heavy Duty Trench/Channel Drain is H-20 wheel load rated when cast in reinforced concrete. It offers a modular design with interlocking components to enable quick and easy connections. Each segment is 4’ in length and comes with a reversible ADA compliant grate that can either be flat or allow for a 3/16” convex surface.

Our trench/channel drain design isn’t just a great design, it’s engineered with a smooth installation in mind. Each 4’ segment can be joined together or cut down to 12” increments. Each trench/channel drain segment has eight (8) anchor positions to allow rebar to be installed to prevent floating. There are two sections on each 4’ trench to allow 2x4s to be installed to aid in leveling and anchoring prior to pouring concrete. There are four drainage ports on each 4’ section to enable 3” and 4” SCH40 or 4” SDR35 connections. Each segment is shipped with #8 x 1 1/4 screws to fasten the grates to the channel and to secure the interlocking pieces, so there is no need to visit the hardware store.

Features:
- Comes with all stainless steel hardware
- Easily installed and removed with one bolt
- 47 sq. in. of open area
- Rust resistant
- Load Class C
- Application: Heavy Duty/Commercial
- Application proof load: 310 psi
- Typical application standard: A-A6005

DUCTILE GRATE TRENCH DRAINS

Polylok drains offer homeowners, architects, engineers, contractors and storm water managers a variety of superior surface drains for a myriad of applications. No matter what the situation requires, from residential to unlimited heavy industrial applications, our quality is unmatched. Polylok drains are engineered for simple one-step installations, minimizing contractor costs for installation. Polylok drains meet and exceed the ADA American Disabilities Act of 1990; Section 4.5.4. Polylok drains are a practical and cost-effective solution where runoff needs to be controlled or captured.

Each channel has four (4) drainage ports that will accept 3” or 4” SCHD 40, or 4” SDR 35 pipe.

2x4s can be fastened to provide a wider footing.

Outside holes accept #4 rebar for fast positioning.
