

**Activated Carbon Vented Covers**

Polylok's Activated Carbon Vented Covers are designed to eliminate offensive odors caused by effluent in your septic system. Two Pounds of activated carbon pellets filters and removes embarrassing odors from escaping your septic system.

18" Cover will fit corrugated pipe only

20" Cover will fit Polylok's 20" risers

24" Cover will fit any 24" corrugated pipe and Polylok's 24" risers

**Installing the cover to a riser or corrugated pipe:**

To install the Polylok Activated Carbon Vented Cover simply screw down the cover to either corrugated pipe or a Polylok riser using the provided screws:

- 6 Screws if using the 18" or 20" cover
- 8 Screws if Using the 24" cover

**Replacing the 12" activated carbon cap assembly:**

To replace the activated carbon cap assembly start by removing the 4 screws as shown on the right. Polylok's replacement activated carbon is sold as an assembly consisting of:

- 12" Replacement Cap
- Pouch of 2lbs Activated Carbon Pellets

12" Cap

Activated Carbon Pellets
